

Guiding Healthy Behaviors in Early Childhood presents:

Documentation + Learning Stories

Thursday, October 14, 2021, 6:30-8:30 p.m.

[Register Here](#) — Session held virtually.

Space is limited and may fill quickly. DCDEE credit will be issued upon completion.

GHBEC will host Jodi Wert, of [Wert Knowing](#), as we continue our deep dive into encouraging dynamic, responsive environments through the Guilford Early Learning Collaborative (GELC) PD series. Constant change is a clear part of our reality during this pandemic. **Documentation and Learning Stories** are a way to mark moments, big and small, that help us be present, as well as see optimal next steps for our learning communities. Come learn more about how to truly see children's experiences and incorporate them in everyday connections!

"In order to see ourselves as researchers we must question 'Who is the Child?' [We must] also [question] who they are becoming each day. We all constantly change in relation to our environment and experience." -Tiziana Filippini, Pedagogist, Reggio Emilia, Italy
